

SUJAL JAVERI

ASPIRING AI/ML ENGINEER | PYTHON DEVELOPER (FRESHER)

TALEGAON DABHADE, PUNE, MAHARASHTRA, INDIA | hello@sujaljaveri.me | sujaljaveri.me

GITHUB : <https://github.com/SujalJaveri> | LINKEDIN : <https://www.linkedin.com/in/sujaljaveri>

SUMMARY

AI/ML Engineer with hands-on experience in building real world projects including AI systems, ETL pipelines, and cloud based applications. Skilled in Python, Machine Learning, and Cloud technologies, with a strong focus on scalable and practical solutions. Passionate about solving real-world problems through AI and continuously learning modern technologies.

PROJECTS

AI Video Note Extractor

- Built an AI-based system to extract structured notes from video input
- Implemented backend processing and automated file generation
- Focused on real-world usability and scalability

Live AI Assistant

- Developed a real-time AI assistant handling dynamic user inputs
- Designed modular architecture for responsiveness and extensibility

Student Result Management System

- Built a database-driven system to manage student records efficiently
- Implemented CRUD operations and structured data handling

Student Task Study Manager App

- Developed a productivity app (CLI) for managing study schedules and tasks
- Focused on usability and structured workflow design

Spotify ETL Pipeline (Cloud Data Engineering Project)

- Built an end-to-end ETL pipeline to extract Spotify data using API
- Transformed and cleaned data using Python and Pandas

HealthVault

- Created a healthcare data management system
- Focused on structured storage and accessibility

Portfolio Website

- Designed and deployed a personal portfolio website with Vibe Coding
- Structured presentation of projects and skills

SKILLS

Programming

- Python (Numpy, Pandas, Matplotlib)
- SQL

Tools & Technologies

- Linux (Ubuntu), Git, GitHub, Docker

EXPERIENCE

Founder — Wish Vault

Apr 2024 – Feb 2026

- Founded and scaled a print-on-demand clothing brand
- Managed product design, supplier coordination, and digital marketing
- Handled customer interactions and business operations
- Gained hands-on experience in branding, pricing, and e-commerce workflows

Public Relations Specialist — Trinity Academy of Engineering

Jun 2024 – Aug 2024

- Performed logistics data operations with high accuracy and timely reporting
- Maintained data integrity and supported operational workflows
- Developed strong time management and process discipline

Content Creator (YouTube) — Vimpy Channel

2019 – 2023

- Built and managed a YouTube channel with 100K+ subscribers
- Led content strategy, video editing, and audience engagement
- Analyzed growth metrics and optimized content performance
- Gained expertise in digital branding, consistency, and audience psychology

ACHIEVEMENTS

- YouTube Silver Play Button (100K+ Subscribers)
Built a large tech audience through consistent content creation
Demonstrated strong teaching and communication skills
- Developed 10+ original projects from scratch
- Active participant in hackathons (e.g., Meta Hackathon 2026)

ADDITIONAL INFORMATION

- Languages: English, Marathi, Hindi
- Strengths: Fast learner, problem-solving mindset, consistency, strong fundamentals
